Habitat for Humanity of Broward's Women Build is an event where women come together to take charge, build homes, and make a real difference in our community.

This event, in its 14th year, goes beyond building homes— it breaks barriers and builds hope for so many families in need. This year's build is in memory of Susie Levan, a true champion of everything that embodied women's empowerment. Her signature 'bee' always worn on her lapel symbolized community, perseverance, hope, peace, and prosperity.
